

ELECTRIC VEHICLES UNLIMITED

Geo Bus - 8, 11, or 14 passenger

Geo Bus is the zero-emission solution for a versatile and convenient mode of transportation. It is the environmental ideal for anything and anyone. Geo Bus is the "green" answer for convention centers, golf courses, resorts, sports arenas, theme parks, vineyards, campuses, airports and more!

Geo Bus can comfortably and quietly transport up to 13 passengers and also provides accommodations for passengers with disabilities. Geo Vehicles recognizes the world's struggle with noise/air pollutants and therefore introduces the Geo Bus as a solution for Sustainable Mobility Projects and eco-friendly transportation.
